Laurent Piron

«Wonderful, elegant, touching...» is how David Copperfield describes the work of Belgian magician Laurent Piron, who has been mesmerizing global audiences with his unique performances since 2005. In 2015, his passion for innovative magic led him to the CNAC (National Center for Circus Arts) in Châlons-en-Champagne for an intensive eight-week course guided by Raphaël Navarro. Intrigued by this fresh approach, he launched «Battement de Peur,» a show that quickly gained international acclaim.

In 2018, Laurent co-founded Cie Alogique with Hugo Van De Plas and Sylvia Delsupexhe, driven by the vision to create contemporary, aesthetic, and profoundly original magic shows that are both accessible and emotionally resonant. His unwavering creative pursuit led him to explore illusion in diverse forms, including the enchanting animation of objects.

With "Paper Ball", Laurent Piron became World Champion of General Magic and won the FISM Stage Grand Prix in Québec in 2022. Also a Mandrake d'Or recipient, he won The One competition at the Blackpool Magic Convention with "Boxes". Laurent Piron continues to push the boundaries of illusion, captivating imaginations and hearts worldwide.
